>> Life Stories Montreal - a special evening of screenings and discussions

CitizenShift joined the [Life Stories Montreal](#) project back in 2007. Life Stories of Montrealers' Displaced by War, Genocide, and other Human Rights Violations is an oral history project exploring Montrealers' experiences and memories of mass violence and displacement. The goal of our collaboration is to make these Oral Histories available to the public. Over the past three years we have gathered over 50 videos as well as numerous audio interviews, photos, articles and links.

Join us for a compelling soirée of films, discussions and reflections featuring some of the best new works to come out of our collaboration.

Wednesday June 2, at the NFB Cinéma
1564 St. Denis

Films :

- Que je vive en paix - Paul Tom (4 min)
- J'y étais - Histoires de femmes en zones de conflit - Paul Tom (22 min)
- Youth Media Workshops Cote-des Neiges - Liz Millar, Gracia Jalea (11 min)
- My Sister Solange - Liz Miller (5 min)

In the presence of the filmmakers, Life Story participants and special guests.

>> Clip your 514

Clip your 514 is a contest where aspiring filmmakers team up with a film professional to create a short documentary report on a subject that's important to them. The project aims to give youth a voice, especially young people coming from immigrant backgrounds.

Check out this great dossier and vote for your favorite films!
