Submit your exposed film to Film Pop office by this deadline. All participant cartridges will be shipped together as a package to the lab and will be spliced together for screening prior to coming back to Montreal - and it is for this reason that no late inclusions can be permitted.

- Remember to tell us the title of your film and confirm the director's name at this time.
- There will be no opportunity to physically edit or preview your film, prior to the event screening. What you shoot is what will be screened at 18fps.

Friday, September 28
